## **FOREWORD**

We are pleased to introduce our Corporate Performance and Improvement Plan for 2023 – 24 detailing our commitments for our residents in relation to the Services which we continue to deliver.

As we enter a new Council Term, we are in the process of reviewing our Corporate Strategy and will continue to align this with our Community Plan.

We also continue to be committed to ongoing improvements and recognise that this requires us to find new ways of working that improve the quality of life for our residents.

This year we have identified 6 areas for improvement as we continue to recover from the Covid-19 pandemic.

The current cost of living crisis has required us to find savings in our budgets without impacting on the quality of services we provide and maintain our high levels of customer satisfaction. We also want to progress our commitments to make our Borough greener and cleaner to minimise the impact on climate change.

We continue to maximise our contribution to the health and wellbeing of our residents through a programme of activities in our Parks and Open Spaces, Leisure and Arts and Cultural services.

We are committed to supporting our local businesses and investors by aligning our planning and business support services and by making sure we pay our suppliers more promptly.

We will continue to manage our staff attendance figures and invest in our leisure facilities to make sure that the usage of these continues to increase.

The delivery of this Plan will require us to work with a wide range of partners including our staff and trade unions. We will report on this in our annual self-assessment report which will be published in September 2024.

Our Elected Members are a key part of this governance framework and it is their responsibility to ensure that progress is achieved against our various performance indicators.

# | Performance and Improvement

The Council's Performance and Improvement Plan sets out how we will continue to be a high performing Council and also addresses how we will deliver on our statutory duty, as listed in Part 12 of the Local Government Act 2014. These 'duties' relate to sections 84(1), 85(2) and 89(5) of the Act, whereby the Council has a statutory responsibility to make arrangements to:

- secure continuous improvement;
- secure achievement of its improvement objectives; and
- exercise its functions so that any Departmental specified standards are met.

Specifically, the Plan provides a rationale for why we have chosen our improvement objectives and details the expected outcomes.

Each objective has been framed so as to bring about improvement in at least one of the specified aspects of improvement as defined in Section 86 of the Act: Strategic Effectiveness; Service Quality; Service Availability; Fairness; Sustainability; Efficiency and Innovation.

The Corporate Improvement Objectives for 2023-24 cover a broad range of business areas and will contribute to the sustainable, social, economic and environmental well-being of the residents of Antrim and Newtownabbey Borough, delivering improvements for our citizens and ratepayers.

Central to Antrim and Newtownabbey Borough Council's approach to performance management and improvement is the achievement of our shared Community Planning vision:

"Antrim and Newtownabbey is a resilient, socially responsible community where citizens enjoy a high quality of life."

## **Arrangements to Secure Continuous Improvement**

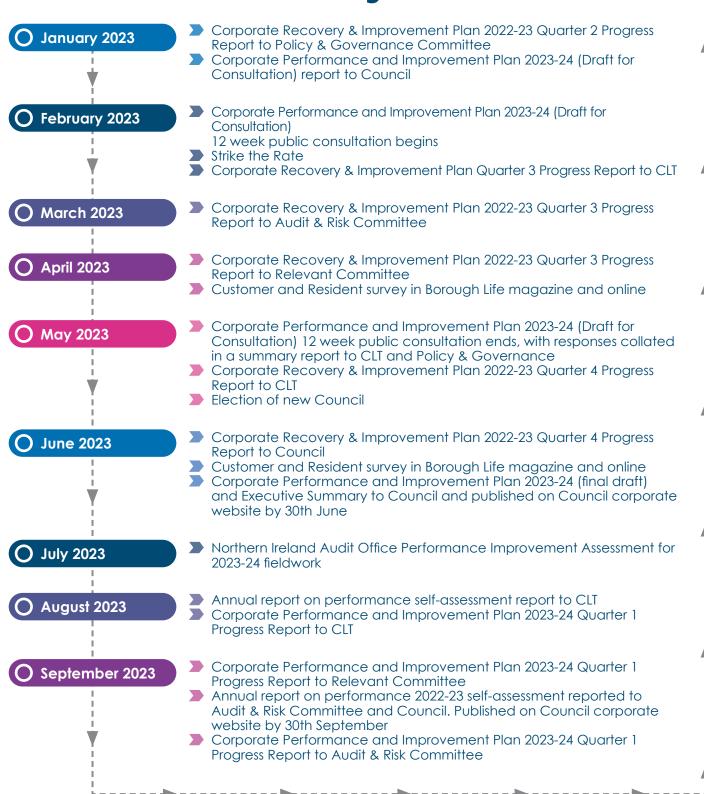

The Council has put in place arrangements to support performance management and improvement which will drive and provide assurance that we are delivering on our vision, shared outcomes and improvement objectives. The Council recognises that an effective approach to performance will achieve a shared understanding across the organisation about what is to be achieved and an approach to leading and developing people which will ensure that it is achieved.

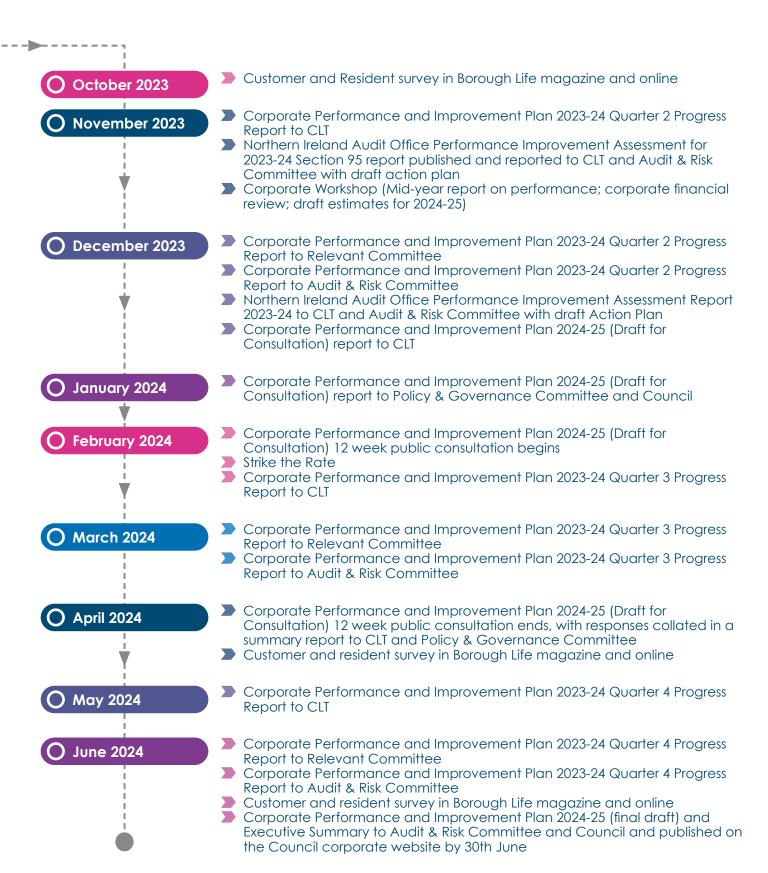

Figure One, illustrates our strategic performance framework demonstrating how the Council's strategic objectives are cascaded throughout the organisation.

## Governance Framework and Performance Reporting

A Performance and Improvement Framework has been developed to ensure that the commissioning, delivery, problem solving and monitoring of identified objectives are achieved. Elected Members are a key part of this governance framework.

#### REPORTING ARRANGEMENTS

Formal reporting arrangements are in place to ensure the effective delivery of the Corporate Performance and Improvement Plan 2023-24. Progress is monitored and reported on a quarterly basis to the Council/Committees and the Corporate Leadership Team.

An annual self-assessment of the improvement and statutory targets for each financial year is published on the Council's corporate website by 30 September of each year.

In addition, the Council commissions an internal audit annually to undertake a review of different aspects of performance improvement which reports to the Audit & Risk Committee.

The Northern Ireland Audit Office also reviews the processes and arrangements as part of the annual Performance Improvement Audit, which will assess compliance with legislative obligations within the Local Government Act (Northern Ireland) 2014, which also requires the Local Government Auditor to publicly publish their assessment annually.

Individual roles and responsibilities are as follows:

#### **COUNCIL & COMMITTEES**

The Council provides overall approval for the

Corporate Performance and Improvement Plan. Reports are forwarded on a quarterly basis for monitoring the progress. Both Council and Committees provide a crucial role in terms of promoting innovation by challenging the status quo and encouraging different ways of thinking and options for delivery.

#### **AUDIT & RISK COMMITTEE**

The Audit & Risk Committee subjects objectives, targets, indicators, risks and performance to appropriate scrutiny, challenge and evaluation. It further reviews progress reports on a quarterly basis, providing scrutiny and challenge to results, as well as ensuring that evaluations are carried out of risks and assessments of performance. Furthermore, it holds responsibility to ensure that arrangements for good governance are in place and operating effectively and that systems are in place to secure continuous improvement in its functions. Performance is reviewed using a range of quantitative and qualitative measures, and where possible comparing to appropriate benchmarks.

#### **COMMUNITY PLANNING**

The Council has established a Community Planning Partnership and 'Support' Partners have also been appointed to reflect the priorities of the Corporate Performance and Improvement Plan 2023-24. The Community Planning Partnership is complemented by 3 Outcome Delivery Groups:

- People
- Place
- Prosperity

The Community Planning Partnership meets on a bi-annual basis, with minutes noted at the Community Planning Committee.

To support the delivery of the Corporate Performance and Improvement Plan 2023-24, Elected Members and officers have roles within seven District Elected Member Engagement Groups. Meetings are held three times annually.

The Community Planning Partnership, associated Outcome Delivery Groups and DEA Engagement Groups are embedded in the Council's Corporate Performance and Improvement Plan.

#### **CORPORATE LEADERSHIP TEAM**

The Corporate Leadership Team (CLT) oversee delivery of the Corporate Performance and Improvement Plan 2023-24, whilst quality assuring any proposals and resolving corporate issues as they arise. CLT report progress to Council/Committee and seek policy direction as required. Directors act as DEA Leads and have strategic influence throughout the organisation to ensure that the officers involved in the delivery of the recovery objectives obtain the necessary resources – HR, Finance & IT etc. to ensure ultimate success.

### PROJECT MANAGERS AND PROJECT **OFFICERS**

A formal reporting structure has been developed and approved for project managers and officers delivering against the Corporate Performance and Improvement Plan to report progress.

#### PERFORMANCE AND IMPROVEMENT TEAM

The Performance and Improvement team provide support for the performance management system and the recording, measurement and reporting of the results of the Corporate Performance and Improvement Plan.

#### **BENCHMARKING**

The Council is an active member of the Association for Public Service Excellence (APSE), which works with over 300 councils throughout the UK to promote public sector excellence. This includes participation in the Performance Network, enabling the Council to compare our performance across a wide range of services and activities.

Council officers will continue to work with the Local Government Performance Working Group, Department for Communities and the Northern Ireland Audit Office to progress a benchmarking approach.

In addition to this, council officers benchmark and review best practice as part of the continuous improvement process.

## Consultation

Significant consultation and engagement has been undertaken throughout the community planning process to identify and understand community needs and priorities and to align these to community planning outcomes. Throughout 2022-23 to date, 35 consultations have been carried out with 7,598 respondents.

This work has helped to inform the identification of Corporate Performance Indicators and Performance Improvement Targets for 2023-24, along with their associated implementation plans. Alongside this, the Council provides a facility through its website for the submission of comments in relation to potential improvements.

The draft Corporate Performance and Improvement Plan 2023-24 has been reviewed and agreed by Elected Members who, through their local representative role, can test the relevance of the improvement objectives against local needs. Public consultation on the draft Plan took place from 6 February - 5 May 2023. The consultation was promoted on Council's social media platforms and within the residents' Borough Life magazine. In addition, Council key stakeholders were contacted and given opportunities to provide feedback.

An analysis of the consultation responses was reported to Council in June 2023.

Our People

# Why have we chosen to keep (but reposition) this as an improvement objective for 2023-24?

Following a successful recovery of leisure services following the Covid-19 pandemic, we have decided to keep Leisure as an Improvement Objective due to the positive impact these services have to our residents.

Regular physical activity is associated with greater wellbeing and lower rates of mental health illness, regardless of age. We aim to continue to increase the use of our Leisure Centres as we are dedicated to providing opportunities for people to improve their health and wellbeing. We will continue to promote the MORE membership scheme and to invest in leisure facilities to improve the customer experience and to encourage people to make use of our leisure centres.

The increase in the number of people taking out memberships and subsequently the increase in the number of visits to our leisure centres will also reduce the cost of subsidy to the Council.

#### What will we do?

- We will connect with MORE users, and attract new members, across a number of platforms.
- We will reinforce benefits to existing members.
- We will continue to listen to and action member feedback.

### **Associated Corporate Plan 2019-30 Theme:**

Our People

# Why have we decided to keep this as an improvement objective for 2023-24?

The Council continues to put our customers at the heart of our service delivery, which is why we have kept high Customer Satisfaction as an Improvement Objective. We continue to promote and improve live chat functionality and customer hubs, in addition to expanding the number of services available through our digital platform.

The Council ensures we are an inclusive Borough, by continuing to address the economic and social needs of our citizens, and will listen to feedback from our residents, visitors and local businesses through traditional and digital channels. Alongside a programme of engagement and consultation, we report back regularly on these interactions and advise of actions resulting from feedback.

The Council has a comprehensive range of online services and has developed its own Resident's App enabling citizens to get more connected in a simple and interactive way.

#### What will we do?

 Continue to communicate with our citizens through Borough Life, Website, Residents' App, and Live Chat.

### Associated Corporate Plan 2019-2030 Objective.

# **Associated Corporate Plan 2019-30 Theme:**

Our People

# Why have we chosen to keep this as an improvement objective for 2023-24?

The Council recognises that Investing in employee wellbeing can lead to better employee engagement, reduced sickness absence and higher performance and productivity. This is why we are keeping staff attendance as an improvement objective. We will continue to deliver a comprehensive wellbeing programme, to promote a healthy, happy, engaged and productive workforce.

# **Associated Corporate Plan 2019-30 Theme:**

Our Prosperity

### Why have we chosen to keep this as an improvement objective for 2023-24?

As a key procurer of goods and services in the Borough, the Council is aware of the importance of cash flow to businesses, particularly small businesses, and will continue to review its processes to ensure that suppliers receive payments more quickly.

Improving our systems and processes to ensure the Council is consistently meeting its quarterly target is important to the Council and businesses in the Borough.

#### What will we do?

• We will continue to review and improve our internal processes, whilst delivering regular training to staff.

#### We will have succeeded in 2023-24 if:

- 80% of invoices are paid within 10 working days.
- 90% of invoices are paid within 30 calendar days.

# | Appendix 3 - Statutory Performance Measures

A set of seven performance measures are in place for Local Government through the Local Government (Performance Indicators and Standards) Order (NI) 2015, relating to three distinct services within the Council, as set out below.

#### **WASTE AND RECYCLING**

- W1: The percentage of household waste collected by Councils that is sent for recycling (including waste prepared for reuse)
  - Household waste is as defined in Article 2 of the Waste and Contaminated Land (NI) Order 1997(a) and the Controlled Waste and Duty of Care Regulations (NI) 2013(b).
- W2: The amount (tonnage) of biodegradable Local Authority Collected Municipal Waste that is landfilled.
  - [Local Authority collected municipal waste is as defined in section 21 of the Waste and Emissions Trading Act 2003(c)].
- W3: The amount (tonnage) of Local Authority Collected Municipal Waste arisings Local Authority collected municipal waste arisings is the total amount of local authority collected municipal waste which has been collected by a district Council.

Statutory indicators have been set by the former Department of the Environment for Waste Management Functions of Councils to ensure consistency and reliability of data and to facilitate accurate comparison between Councils. This is aimed at providing Ministerial and public assurance over the performance of the local authority collected waste management system.

Central reporting also ensures that the Department (now DAERA) continues to meet its statutory obligations under the Code of Practice for Official Statistics when reporting at a regional level. Each of the 11 Councils has access to a web based system for local authority collected municipal waste reporting known as Waste Data Flow (WDF). This facilitates reporting from local government to central government and data is based on returns made to WDF by Councils, within two months of the end of each quarter.

Quarterly data reports are provisional and may change when all returns have undergone validation. The fully validated figures that are published in the annual report have undergone audit by the Northern Ireland Environment Agency (NIEA) and further validation by Statistics and Analytical Services Branch (SASB).

Targets for household recycling, remain at the 2019-20 level of 50%, however these have been superseded by the Waste (Circular Economy) (Amendment) Regulations (Northern Ireland) there will be an interim target of 55% for the recycling of municipal waste by 2025, which will increase by 2035 to 65%.

Targets for biodegradable waste that is sent to landfill, were set within the Northern Ireland Landfill Allowance Scheme (NILAS) which remain set at the level set for Council in 2019-20, due to the scheme no longer being in place. Future targets are expected to be set at 10% of the total amount of generated municipal waste by 2035, which is also subject to the enactment of the Waste (Circular Economy) (Amendment) Regulations (Northern Ireland).
